OF NEW YORK.

FOR VICE PRESIDENT,
THOMAS A. HENDRICKS,
OF INDIANA.

Democratic State Ticket.

For Secretary of State—WILLIAM BELL,
Supreme Judge—WILLIAM E. FINK,
Board of Public Works—H. P. CLOUGH.

FOR COMMON PLEAS JUDGES,
JOHN ADAMS,
SAMUEL M. HUNTER.

I am not in favor of the repeal of the Resumption Act, unless something is substituted that will more effectually bring about specie payments as soon as the time prescribed in that act.—R. B. HAYES.

To the Democrats of Knox County, Greeting!

A Democratic County Nominating Convention will be held in the Court House, Mt. Vernon, Monday, August 7, 1876, at 11 o'clock, a. m., for the purpose of placing in nomination a Democratic County Ticket, to be voted for on Tuesday, October 10, 1876.

Each township is entitled to three delegates, and each ward in Mt. Vernon, is entitled to one delegate. Let every Democrat in the county attend the primary meetings. Township primary meetings to be held on Saturday, August 5, 1876. Organize at 4 o'clock, p. m., and close at 6 o'clock, p. m. Ward primary meetings to be held on same day, commencing at 6 o'clock, p. m., and closing at 7 o'clock, p. m.

The place of holding primary meetings will be the usual place of holding elections in the different townships and wards.

IMPORTANT!

At the primary meetings each township and each ward will also select three working Democrats to act as a sub-committee for each township and ward during the coming campaign. We trust our friends will not fail to attend to this important matter. Hand the names of the sub-committees to Mr. John D. Thompson, Chairman of the Democratic County Central Committee.

By order of the Central Committee,
JOHN D. THOMPSON, Chairman,
JOHN W. WHITE, Sec'y.

Manton Marble, late editor of the World, is spoken of for Governor of New York.

If you wish an honest Government, low taxes, fair prices for labor and produce, and better times for all classes, vote for honest Sam Tilden.

Dom Pedro, the Emperor of Brazil, having seen everything in the United States he considered worth seeing, has gone to pay his respects to John Bull.

Indications multiply that McKee will be pardoned out of jail, and his newspaper, the Globe-Democrat, grows hotter and hotter in support of Hayes and Wheeler.

Zach Chandler claims that the Hayes-Grant party will carry five Southern States; which means that a military despotism is about to be established over those States.

Hayes says he will serve only a single term as President, and will carry out Grant's policy, and will carry out Grant's policy, his election will be the same as a third term for Grant.

When Blaine goes into the Senate what a cold greeting he will receive from Morton and Conkling—especially the latter! It will pay one to visit Washington to witness the sight.

President Grant is doing everything in his power to render Grantism odious, and to make sure the election of Tilden and Hendricks. He is entitled to the thanks of the Democracy.

The "fast mail" enterprise has played out. The only parties who received any benefit from it were the publishers of sickly papers, who couldn't afford to pay for telegraphic dispatches.

When Hayes resigns the Governorship of Ohio, will it not be a lovely sight to see the whisky bloated and political bummer, Tom Young, stepping into his place? Republicans, hide your heads for shame!

The Chicago Times, one of the most reliable papers in the North-west, is of the opinion that Tilden will carry Wisconsin by a majority from 10,000 to 20,000. The Radicals might as well throw up the sponge.

The Intercollegiate regatta at Saratoga Lake, on the 19th, resulted in a complete victory in every one of the three races for the students of Cornell University. In athletic sports Cornell leads all its rivals.

Hon. George H. Pugh, formerly United States Senator from Ohio, and one of the most gifted and eloquent lawyers in the country, died at Cincinnati, last week, in the 54th year of his age. He died in the Catholic faith.

The Columbus Statesman says: Five hundred of the most intelligent and prominent German-American citizens of this city, a majority of whom have heretofore been Republicans, have published a card declaring for Tilden.

General Grant, during a recent conversation, is reported as having remarked to a friend: "I think I may as well have friends in office under me as enemies, and I am determined not to be guided by what senators and representatives may say, but shall decide in these matters for myself."

The New York World says that

"Ohio is swinging nobly into line. In the actual position of affairs there can be no doubt that there is the heartiest union between the Ohio Democrats and the rest of the party. Their interests are the same as those of Democrats all over the country. Reform in the civil service, reform in the tariff and the reformation of public expenditures are no less important to them than to us in New York or to New England." We can say to the World that there never was a fairer prospect for Democratic success in Ohio than now.

Governor Hayes, in his letter accepting the Republican nomination for President, says that an individual should be retained in office "so long as his personal character remains untarnished and the performance of his duties is satisfactory," and yet the gentleman who gives utterance to this sentiment, the very moment he was inaugurated Governor of Ohio, removed from office men of the highest personal character, simply because they were Democrats, who had been appointed by Gov. Allen.

Burlington (Iowa) Gazette: The campaign in Ohio this fall, it is stated, will equal in interest that of last year, with this difference: that the entire opposition to Grantism will now be combined. The Allen and Thurman wings are united, and with them there are thousands of men who love Free Trade and honest government. It is beginning to look as Governor Hayes would have to fight for Ohio. Five thousand majority in a vote of 600,000 is nothing to boast of. Let that fact be remembered.

J. W. Shuckers, Esq., who was at one time editor of the Mt. Vernon Republican, delivered an address on the "Currency Conflict," before the Liberal Club, of New York, on Friday evening, June 23d, a copy of which he has had the kindness to send us. The address is an able vindication of the greenback currency—an endorsement that every man is anxious to receive for his labor or his wares, and no person wishes to dishonor or repudiate, but the trading politicians and Radical Shylocks.

It is not unlikely that Florida will go for Tilden and Hendricks. Under the stimulus of the St. Louis ticket, and very liberal and popular State nominations the Democrats are holding mass meetings and barbecues, and running railroad trains to carry the crowd—and what is notable, large numbers of the negro voters are joining them. Colored Democratic clubs also are organizing in different parts of the State.

Some Republicans out in Indiana, who have some regard for decency and principle, are making an effort to have Godlove S. Orth, their candidate for Governor, removed from the ticket, on account of his corrupt and disreputable career as a politician. As matters now look, "Blue Jeans Williams" will beat Orth, so badly that he will have to get affidavits to prove that he was a candidate.

Two weeks ago we exposed a deliberate falsehood by the pulpit pounder and gospel expounder of the Republic, respecting our position towards Governor Tilden, before he was nominated for President, but the good man has not had the candor or honesty to acknowledge that he lied—under a mistake. A nice man to preach the gospel, and rant about other people's sins.

The N. Y. Herald grows prophetic. It says "that unless the Republicans put an end to this new episode of Censorism, this business of degrading honorable men, to please Boss Shepherd and average Belknap, they may as well close their canvass. Hayes and Wheeler will be as badly whipped as Scott and Graham." There "needs no ghost to come from the grave to tell us that."

When Honest Sam Tilden was elected Governor of New York, the State taxes were sixteen millions. Under his Reform Administration the taxes were reduced to eight millions. When Uncle Sam becomes President he will inaugurate a like reform and economy in every department of the Government.

The Republicans, in their National Platform, indorsed the administration of Grant, with all its illegal, revolutionary, tyrannical and abominable acts; and as Hayes has planted himself fairly and squarely upon that platform, it therefore follows that every ballot cast for Hayes is a vote indorsing Grantism.

In the Missouri Democratic State Convention, last week, resolutions were unanimously adopted that the Democratic party of Missouri condemn the action of the lower house of Congress in curtailing the extravagant expenditures of the Government, and in investigating the formations of President Grant.

Drunken Zach Chandler, of Michigan, Grant's Secretary of the Interior, has assumed the management of the Hayes campaign, and proposes to run the machine in the interest of the office-holders. It may therefore be set down as a fixed fact that the election of Hayes will be the perpetuity of Grantism.

Cleveland Plain Dealer: Scores of men who voted for Governor Hayes, last fall, for Governor, will vote for Tilden for President in November. The people know that Hayes will make his appointments from and keep in power the same old Grant crowd. They want a change from attic to cellar, and will vote for Tilden!

The Republican National Convention that nominated Hayes was controlled by the Grant leaders and trading politicians. That Convention indorsed Grant's Administration, with all its tyranny and wickedness. Every vote for Hayes, therefore, is a substantial approval of Grant's despotic acts.

If Grant had an ounce of common sense he might know that the principal effect of his dismissal of Bristow Reformers from office, will be to make Democratic votes, and thus insure the election of Tilden and Hendricks. But probably that is what Grant desires.

In the House of Representatives, on Monday, Mr. Kelley moved to suspend the rules and pass the bill for the coinage of the standard silver dollar, and to make it a legal tender for all debts. Rejected—116 to 68; not two-thirds in the affirmative.

That brave little dapper, Phil Sheridan, expects to exterminate the savage Sioux Indians, by looting around the saloons of Chicago. He would rather hound and persecute white men in the South than the savage foe on the frontier.

Morro: Best goods and full weight is D. B. DeLand & Co.'s motto, hence they recommend Best Chicago Salted.

Presidential Prospects—Revised Calculations.

In the BANNER of July 17th we gave our readers a Presidential calculation, where in we claimed 193 electoral votes for Tilden, or eight more than are necessary to a choice, and gave Hayes 129 electoral votes, or 67 less than are necessary to elect—counting Pennsylvania, Colorado and Indiana as doubtful. Our Presidential prospects are becoming brighter every day, and we therefore revise our calculations. We have given the Republicans every State they can calculate upon with any degree of certainty. Of the States set down as doubtful—Pennsylvania, Illinois, Ohio and Wisconsin—our chances for carrying them are at least equal to those of the Republicans. Our friends in Wisconsin are very confident that they will carry that State, and from the changes that are going on, especially among the Germans, the indications are that we will carry Ohio:

THE CAMPAIGN BANNER.

We will furnish the BANNER to Campaign Subscribers from this date until November 15th, postage paid, for

ONLY FIFTY CENTS!

The Presidential Campaign of 1876 will be one of the most exciting in the history of the country, and will mark the final struggle between the people and their radical oppressors. The BANNER will be found on the side of the people, advocating sound Democratic principles, the election of Tilden and Hendricks, the restoration of honest Government and the inauguration of an era of Reform.

The Yacht "Mohawk," with a pleasure party on board, was struck by a squall of Stupor, Staten Island, July 20th, and turned bottom side up. Among the lost were Commodore Garner, his wife, Miss Adelle Hunter, daughter of Deserose Hunter, Fort Thorne, brother of Mrs. Garner, two cooks and one seaman. These parties went into the cabin to avoid the storm. Most of those who were on deck were saved. The sailors charge the disaster upon the Captain Rawlings, and he was put under arrest. The bodies of the drowned have been taken from the wreck.

Cleveland Plain Dealer: With Thurman, Allen, Pendleton, Steelman, Ewing, Morgan, Payne, Ranshaw, Hurd, Groesbeck and all the old leaders of the Democracy of Ohio united on Tilden and Hendricks, and such able Liberal leaders as Judge Stallo, Judge Hooley, Ex-Lieutenant Governor Mueller, Fred Hassacker, Charles Remmelin and General Bristow coming to the front and plunging into an aggressive fight against Hayesism, it is certain that the fight in Ohio will result in the triumph of the Tilden Reform ticket.

Hayes has never uttered a word of dissent against any of the outrageous, illegal and tyrannical acts of Grant, and as the Convention which nominated Hayes indorsed Grant, with all his political sins, it follows that Hayes, if elected, will carry out Grantism in all its outrageous forms. If the people wish Reform and a good and economical Government, they must vote for Honest Sam Tilden. This is the issue fairly presented to the people.

The Radical press think they can injure Honest Sam Tilden by associating his name with that of John Morrissey—Morrissey is a gambler, but he is not a thief, and herein he has the advantage of the men who associate with Grant and run the Republican party. And besides, when Morrissey ran for the State Senate in New York, last year, in opposition to the regular Tammany nominee, he received the support and was elected by the votes of Republicans.

The following State elections take place before November: Kentucky, first Monday in August; Vermont, first Tuesday in September; California, first Wednesday in September; Maine, second Monday in September; Georgia, first Wednesday in October; Ohio, Indiana, Iowa, Nebraska and West Virginia, second Tuesday in October.

Cleveland Plain Dealer: Scores of men who voted for Governor Hayes, last fall, for Governor, will vote for Tilden for President in November. The people know that Hayes will make his appointments from and keep in power the same old Grant crowd. They want a change from attic to cellar, and will vote for Tilden!

To the Democrats of Knox County.

"A stitch in time saves nine." Wise action by a nominating convention may secure victory, and avoid defeat. Last year a disregard of these maxims lost us the three most important offices in the county. As citizens and Democrats our nominees were good men, but as candidates one was very weak, and the others not strong. The consequence was that while Allen carried the county by 300 majority the Republican candidate for Clerk was elected by over 300, and we lost the offices of Probate Judge and Auditor.

The same danger now stares us in the face, and a repetition of last year's blunder, will again defeat us. No man has a claim to any office. The offices are made for the benefit of the whole people, and not in the interest of particular individuals. On the other hand no Democrat has the right to refuse office when his fellow-citizens demand that he shall be a candidate. This brings us to the point. A number of worthy persons are candidates for Sheriff. If nominated, which one can beat Magers? The neighbors of two of them say they are not strong in their own localities, and if not strong at home they would be weak elsewhere. There is a general desire throughout the county that Wm. DUNHAM should be nominated, but he positively refuses to be a candidate. We deny that he has the right to refuse. He has accepted favors at the hands of the party, and we have a right to be benefited by his strength. He has made an excellent Treasurer and has made hosts of warm friends both in and out of the party. His nomination would be in conformity to the two-term rule which applies to the same office. The law limits the Treasurer and Sheriff to two terms, so that their accounts may be overhauled by a new man, and the law is right. But the fact that he has made a good Treasurer, is a weak objection against making him Sheriff. DUNHAM can carry the county by three to five hundred, and the Convention will do well to nominate him, whether he likes it or not. Mr. Hart served two terms as Prosecuting Attorney, also. Beach two terms as Sheriff, and were both immediately sent to the Legislature.

A Horror at Hamburg, S. C.

On the 4th of July a company of negroes were parading through the little town of Hamburg, South Carolina, but, although insolent, as far as reports have reached us, they committed no overt act against the public place. It seems, however, that they occupied the road, and refused to make way for some white people who wish to pass. This brought about trouble and a "conflict of arms." A desperate fight ensued and many lives were lost on both sides; but the negroes were finally overpowered, their arms taken from them, and they were made "prisoners of war." If the trouble had here ended, it might be regarded as a fair case of the conflict; but it is said the negroes, while prisoners, were taken out and shot by their captors, or in other words murdered. This covardly act was worthy of the worst of the slaveholders, and we are glad to know that the Southern press and Southern Congressmen all unite in denouncing the outrage as it deserves; and forming among these Congressmen was the gifted Lamar of Georgia, who uttered the famous condemnation of the murder, as proceeding heard on the floor of Congress, and received the plaudits and congratulations of his brother Congressmen of both parties. But the small-minded politicians, who think this affair will furnish an argument for keeping Grant's army of thieves in power, mistakes the temper of the people.

Party Movements.

The Democrats of the Fourth Indiana district nominated J. D. New.

The Republicans of the Fifth Ohio district nominated J. L. H. Long.

The Democrats of the Seventh Ohio Congressional district on Friday last nominated Henry L. Dickey.

Hon. George F. Hoar declines the Republican nomination for Congress in the Worcester (Mass.) district.

John H. Young, of Urbana, has positively declined to be a candidate for the Democratic nomination for Congress.

The Democrats of the Third Indiana District have nominated George A. Bicknell for Congress, to succeed Speaker Kerr.

Gen. Phelps has been nominated for Governor by the Democracy of Missouri. He will be elected by an immense majority.

General Landers, of Indiana, has been nominated for Congress both by the Democrats and the Greenbackers of his district.

The Democratic Convention of the Seventh Indiana Congressional district, have nominated Hon. Franklin Landers for reelection to Congress.

Colonel G. W. McCook, of Jefferson county, Ross J. Alexander, of Belmont, and Samuel Kennon, of Guernsey, are spoken of in connection with a Democratic Congressional nomination.

From an official circular prepared and issued by the Secretary of State of Nebraska, (a copy of which has been sent us) the population of that young and enterprising State is estimated at 257,747.

CAMPAIGN NOTES.

The next census will include among the "occupations" a long list of ex-Cabinet officers.

Ex-U. S. Senator Trumbull, of Illinois, advocates the election of Tilden and Hendricks.

It seems to be regarded more an honor now to get out of the Cabinet than to get into it.

"The whole art of Government consists in the art of being honest."—Thomas Jefferson.

The campaign lies of the Radicals are so thin that they are hardly worth minding.

McKee, Avery, McDonald, Babcock and Joyce, of the Whisky Ring, are enthusiastic in support of Hayes.

Hon. John M. Palmer, late Republican Governor of Illinois, has espoused the cause of Tilden and reform!

Hayes says that there's no need for reform in the Radical party, and of course the people need not expect it.

It means all the same whether you write it Tilden, Hendricks and Reform, or Truth, Honesty and Respectability.

The Democratic Northwest says: "The nomination of Tilden and Hendricks gives universal satisfaction in these parts."

The Defiance Democrat says: "No straight-out Democrat will refuse to vote for Tilden and Hendricks. Mark that."

Governor Tilden has already met and beaten one high military reputation—a higher one than that of Governor Hayes.

The following is the principal plank of the Republican platform: Misrepresentation, Hypocrisy, Cheat and the Bloody Shirt.

Nast is fond of depicting the Democrat as a tiger in the form of a tiger. It is a dangerous animal—one of the thief-eating tigers.

The Northampton (Mass.) Journal, heretofore a strong Republican organ, comes out squarely for the Democratic National ticket.

The Democracy of Philadelphia ratified a week ago Saturday night, and expect to carry that city by a large majority in November.

Wisconsin is solid for Tilden, and will give him the 10,000 majority that the Democrats rolled up in the Badger State two years ago.

The Upper Sandusky Union says: "We know not of a single Democrat who is not now an earnest supporter of Tilden and Hendricks."

In reference, says the Democrat, several Republicans have expressed a determination to vote for Tilden. No Democrat will vote for Hayes.

The effort is being made to get another letter from Hayes—to the effect that he is opposed to Grant's recent acts. But he will hardly write it.

The Boston Herald (Independent) regards Governor Tilden as the strongest and most available man the Democrats could have nominated for the Presidency.

The New York Tribune says that Mr. Tilden's course since he became Governor has made him the representative of honesty in administration and decency in politics.

Hesing, Chicago "crooked" whisky man, is to be pardoned out on condition that he will bring the paper with which he is identified to the support of Hayes, Wheeler and Grantism.

New York Tribune: Neither Bristow, Jewell, Pratt, nor Yaryan received a certificate of character from the President.—Only patriots of the Murphy, Delano and Shepherd school are favored with such documents.

Several leading Democrats of Massachusetts are in favor of nominating Charles Adams for Governor. It is thought that with the Prohibitionists' defection such a nomination would carry the State for the Democracy.

The Buffalo Express (Republican) declares that Grantism was not indorsed at Cincinnati; it was only the honorable work of the Administration that was approved, not the dishonorable part. This is splitting hairs and drawing too fine a line for public comprehension.

President Grant still keeps a grip on the party machinery, and will continue to peddle out the offices to the bidders to the end of his term. From this point he is the strongest ally the Democrats have. He will probably secure the election of Tilden.—Boston Herald.

The old cry of "copperhead" and "rebel" is all very well; but suppose the fellow who is shouting it has his hands buried in your pantaloons pocket, and in the name of "the best government the sun ever shone upon" is about extracting your wallet?—Chicago Courier.

It is said that Hayes is consulted almost, if not quite directly, in all the President's late removals, and through his personal advisers point out where his prospects can be improved by making changes. It is pretty evident, therefore, that Hayes is thoroughly in control in Cleveland.

Robert Lincoln, son of the Ex-President, has also repudiated Grantism and Hayesism, and come out for Tilden, Hendricks and Reform. It begins to look very much as though Illinois would give a large majority for the Democratic ticket, the changes to the Democratic party being much more numerous and notable this year than were the changes to the Republican party in 1869, when Illinois first deserted the Democratic column.

Tilden and Reform in Texas.

New York Sun: The nomination of Tilden has been received with great enthusiasm in Texas, which promises a majority of 100,000 for the Reform ticket in November. An earnest Tilden man, who is also a prominent merchant in Galveston, writes that the Conservatives throughout the State propose to ignore all past issues and conduct the pending campaign upon the simple basis of reform in the administration of the Government, soliciting the co-operation of all honest men without distinction of race, in bringing about the change which has become so essential to the people.

It is the right ground to take, not only in Texas but in every other State. The administration of public affairs has become so corrupt and dishonest that it is a disgrace to the country, and it is a disgrace to the country that it is a disgrace to the country.

There is a strong feeling in Texas that the country has been deceived

He was brought to his home in Mt. Vernon and is under good medical treatment, and no doubt will soon recover.

Foot Cut off by a Moving Machine.

On Friday last, Charles Goldsborough, a young lad aged 14 years, residing in Liberty township, met with a most painful and serious accident, that came near proving fatal. He lives with Mr. James O'ggs, who took him into his family when but two years old. On the day above mentioned Mr. O'ggs, assisted by the young lad, were cutting grass with a moving machine in an orchard, and the branches of the trees hung so low, that Charlie dismounted to uncheck the horses, that they could work them to better advantage. In doing so, one of them being very fiery, sprang forward, and in an instant Charlie's right foot was caught above the ankle in the wheels of the machine, and before the time could be stopped, the limb was terribly mangled, and the foot almost completely severed. A son of Mr. O'ggs was dispatched on a fleet horse to Mt. Vernon for a surgeon, where he secured the services of Dr. Russell. After making an examination, Dr. R. was compelled to amputate the foot, it being too badly mangled to attempt saving it. Charlie was considerably exhausted from loss of blood, but he bore his suffering like a hero, and we are glad to learn that he will recover from the severe shock, and the amputation.

The Athletics and Stars of this city, composed of young men under 20 years of age, indulged in a match game on the grounds of the Reds, on Monday afternoon last, that showed some very creditable playing. Following is the result by innings:

"The Only Way to Make an Indian Peaceable is to Kill Him."

General James B. Steedman, editor of the Toledo Democrat, is something of a warrior, and is given to the settlement of knotty problems in an abrupt way. His views on the Indian question may be gathered from the following extract from one of his editorials:

"The death of Custer and his brave men calls for vengeance—for a prompt and terrible retribution. The savage butchery of this splendid soldier and his gallant men, it is to be hoped, will put an end to the pining sentimentality which has influenced the appointment of Quakers to Christianize these heathen savages, whom the bullet and bayonet only can control. The only way to make an Indian peaceable is to kill him; and the only thing Grant can do to satisfy the friends of the murdered officers and men—and quiet the deep feeling of indignation toward himself for his unjust discrimination against the Democratic soldiers—is to order the whole disposable force of the army to the plains to wipe out the copper-colored thieves and murderers that infect the country between the Mississippi River and the Pacific Ocean. There must be action, prompt and decisive, and if appropriations or any legislation is needed to put a sufficient force in the field and put an end to Indian depredations and murders, let Congress act with patriotic promptness in responding to the demands of the Administration. The blood of our comrades and countrymen calls for vengeance, and we pray God that it may be swift and terrible—so dreadful that not a red-skin may be left between the waters of the Mississippi and the Pacific to disturb the peaceful settlement of the country."

White for the Human Family. Yellow for Horses and Animals.

These Liniments are simply the wonder of the world. Their effects are little less than marvellous yet there are some things which they will not do. They will not cure cancer or mend broken bones, but they will always allay pain. They have strangled fumes, cured rheumatism of many years standing, and taken the pain from terrible burns and scalds, which has never been done by any other article.

The white Liniment is for the human family. It will drive Rheumatism, Sciatica, Neuralgia from the system; cure Lambeys, Chills, Palsy, Itch, and most Cautaneous Eruptions; it extracts frost from frozen hands and feet, and the poison of bites and stings and restores reptiles; it subdues swellings, and alleviates pain of every kind.

For sprains or bruises it is the most potent remedy ever discovered. The Centaur Liniment is used with great efficacy for Sore Throat, Earache, Tooth Ache, Chalk Breasts and Weak Back. The following is but a sample of numerous testimonials:

JOHN, JEFF. CO. IND. MAY 23, '73.
"I think it my duty to inform you that I have not been free from these swellings in eight years. Now I am perfectly well, thanks to the Centaur Liniment. The Liniment should be applied warm."

BENZ, BROWN.
"The white Liniment is the trial. It is reliable, it is handy, it is cheap, and every family should get it. To the sick and bed-ridden, the halt and lame, to the debilitated and sore we say, 'Come and be healed.' To the poor and distressed who have spent their money for worthless medicines, a bottle of Centaur Liniment will be given without charge."

The Yellow Centaur Liniment.

It is adapted to the tough muscles, cords and flesh of horses and animals. It has performed more wonderful cures of Lambeys, Windgalls, Scratches, Sweenies, and general lameness, than all other remedies in existence. Read what the great Expressman says:

NEW YORK, January, 1874.
Every owner of horses should give the Centaur Liniment a trial. We consider it the best article ever used in our stables."

H. MARSH, Sup't Adams Ex. Stables.
ED. PULTZ, Sup't U. S. Exp. Stables.
A. S. OLDS, Messrs A. J. Stewart & Co., New York.

"MONTGOMERY, ALA. Aug. 17, 1874.
GENTLEMEN—I have used over one gross of Centaur Liniment, yellow wrapper, on the scales of my plantation, besides dozens of the family Liniment for my negroes. I want to purchase it at the wholesale price, and will thank you to ship me by Savannah steamer one gross of each kind. Messrs A. J. Stewart & Co. will pay my bill on presentation."

Respectfully,
JAMES DARROW.

The best patrons of this Liniment are Farmers and Veterinary Surgeons. It heals Galls, Poll-evils, and Wounds, removes Swellings, and is worth millions of dollars to Farmers, Liverymen, Stock-growers, Sheep-rangers, and those having horses or cattle. What a Farrier cannot do, \$20 the Centaur Liniment will do at a trifling cost.

These Liniments are warranted by the proprietors, and a bottle will be given to any Farrier or Physician who desires to send them everywhere. J. B. ROSS & Co., 46 Day Street, New York.

Castoria.

Is a pleasant and perfect substitute, in all cases for Castor Oil. Castoria is the result of an old Physician's recipe to produce, for his own practice, an effective cathartic, pleasant to the taste and free from gripes.

Dr. Samuel Piercher, of Hyannis, Mass., succeeded in combining, without the use of alcohol or negative agents, as sugar, or like as honey, and which contains all the desirable properties of Castor Oil.

It is adapted to all ages, but is especially recommended to mothers as a reliable remedy for all disorders of the stomach and bowels of children. It is certainly agreeable to the stomach, harmless, and cheap. It should be used for wind colic, sour stomach, worms, costiveness, cramp, &c., then children can have sleep and mothers may rest.

J. B. ROSS & Co., of 46 Day Street, New York, are the sole proprietors of Castoria, after Dr. Piercher's recipe. Feb. 26-1873

THE ONLY WAY TO MAKE AN INDIAN PEACEABLE IS TO KILL HIM.

General James B. Steedman, editor of the Toledo Democrat, is something of a warrior, and is given to the settlement of knotty problems in an abrupt way. His views on the Indian question may be gathered from the following extract from one of his editorials:

"The death of Custer and his brave men calls for vengeance—for a prompt and terrible retribution. The savage butchery of this splendid soldier and his gallant men, it is to be hoped, will put an end to the pining sentimentality which has influenced the appointment of Quakers to Christianize these heathen savages, whom the bullet and bayonet only can control. The only way to make an Indian peaceable is to kill him; and the only thing Grant can do to satisfy the friends of the murdered officers and men—and quiet the deep feeling of indignation toward himself for his unjust discrimination against the Democratic soldiers—is to order the whole disposable force of the army to the plains to wipe out the copper-colored thieves and murderers that infect the country between the Mississippi River and the Pacific Ocean. There must be action, prompt and decisive, and if appropriations or any legislation is needed to put a sufficient force in the field and put an end to Indian depredations and murders, let Congress act with patriotic promptness in responding to the demands of the Administration. The blood of our comrades and countrymen calls for vengeance, and we pray God that it may be swift and terrible—so dreadful that not a red-skin may be left between the waters of the Mississippi and the Pacific to disturb the peaceful settlement of the country."

Wit and Humor.

What class of people may be said to lie the most?—Sluggards.

An en-bossing machine—the foreman of a composing room.

A South Carolina paper is called the Not Shell. Of course it is edited by a "Ker-nel."

"He's a polished gentleman," said she, gazing fondly at the bald head which showed forth her handwork.

A contributor, writing with the thermometer at ninety-eight, says that Crazy Horse has lost his equanimity.

The individual who called eight boots comfortable defended his position by saying they made a man forget all his other miseries.

"Did any of you ever see an elephant's skin?" inquired a teacher of an infant class. "Yes, sir," "Where?" "On the elephant's back."

A New York woman has christened his daughter Glycerine. He says it will be easy to prefix Nitro, if her temper resembles her mother's.

Boomer—"Has the red-haired girl gone away?" Landlady: "Yes, sir." Boomer: "I thought so. I found a black hair in the butter to-day."

There is something wonderfully grand and impressive about the roar of thunder, until you discover it has caused the half-pint of milk in the house.

A Camden man lugged a butcher-knife around for two hours, offering to kill any one who said he wasn't Moses, of Biblical fame. Every one said he looked just like Moses.

A sensible writer advises those who would enjoy good eating to keep cool, and to tell whether he is eating boiled cabbage or stewed umbrellas.

A loving British wife's postscript to a letter addressed to her husband in New York: "Dear William, I have perused your reports and mortgage returns every day, hoping to see your name."

A young lady viewing Don Pedro at the Centennial, the other day, remarked, as she fixed her eyes on his majesty, "It isn't exactly immortality to see an emperor, of course, but it's a glimpse, at least, of King Don come."

Quox County Farmer.

Pasturing Meadows. If I tell you, says S. J. Woolley, in the Ohio Farmer, that pasturing your meadows will make them more productive, you may doubt it. But such is the fact in many cases. It is my experience that this is the only way that very many meadows can be brought to full productivity. But it must be done in the proper manner and at the right time. Do not pasture your meadows in the Spring and expect them to produce a full crop; neither should you pasture off the aftermath too close. Nearly all of our meadows have failed to produce more than half a crop after five to eight years, and after pasturing them one season, the next year they would produce a good crop. In one particular instance, I rented a meadow to a man for a year, and it had only produced half a crop of hay for two or three years previous. He put about three times as much stock on it as should have been, it was grazed close and grazed all summer. I concluded that it would not amount to anything for meadows or pasture, afterward, any more, but the next spring it looked so strong and vigorous that I let it alone, and it produced a full crop. I have never seen this accounted for or seen anything in print in reference to it, but have no doubt that the experience of others will coincide with my own. The reason, I account for it only in the following manner: It is a well-known fact that many old meadows are so full of worms that they cut nearly all the grass roots off, and in places you can roll the sod back like a fleece of wool. The worms are so near the surface that the crows and the red-headed woodpeckers destroy great quantities of them; the flocks of yellow-hammer mostly live on them also. If the meadows are trampled all over with farm stock, these worms will all be tramped to death.

Sound Maxims for Farmers. One acre of ground well prepared, manured and cultivated, will produce more than two acres that received the same degree of cultivation, care and labor expended upon them.

One cow, mule, horse, sheep, hog, well fed, is more profitable than two kept on the same amount of food necessary to keep one well.

No farmer who buys wheat, oats, corn, fodder and hay, as a rule, for ten years, can keep the sheriff from his door in the end.

The farmer whose habitual beverage is cold water, is healthier and wiser than he who does not refuse to drink.

It is worth while for farmers to know that thorough culture is better than three mortgages on their farms.

That an offensive warfare against weeds is five times less expensive than a defensive one.

That good fences pay better than lawsuits with your neighbors.

That hay is a deal cheaper made in summer than purchased in winter.

That educating children properly is money loaned at 100 per cent.

That one evening spent at home in study is more profitable than ten lounging about country taverns.

That cows should always be milked regularly and dry.

That a horse that lays its ears back and looks lightning when any one approaches, is vicious.

That scrapping the grain of fitting hogs is a waste of grain.

That it is the duty of every man to take a good, reliable, entertaining paper, (like the BANNER, for instance), and pay for it promptly. The value received is an hundred fold.

Weight of Pigs for Market. It was only a few years ago that swine breeders were vying with each other for the greatest weight of carcasses; but this is now all changed. Hogs that will weigh 500 pounds are sold at a less price per pound than those of 250 or 300 pounds.

The market in England has long favored light weights. London is chiefly supplied with pigs of less than 200 pounds weight. And this tendency of the market to pigs, will fatten, but of small weight, is exactly in the line of his interest. It costs more to make the second hundred pounds of a pig than the first, and still more to make the third hundred pounds, and so every pound added becomes more expensive.—Wallace's Monthly.

Profit in Farming. There is but one way to make farming profitable, and that is to find out how to produce an article for less than the price it commands in the market. While every farmer will admit the truth of the above proposition, not one in ten keeps any record of expenses in order to ascertain exactly what it costs to produce a bushel of corn or other grain or a pound of meat.

When as accurate and thorough systems of bookkeeping are practiced among agriculturists as in mercantile pursuits, we shall have a better basis to make estimates of the comparative profits between the two in proportion to the amount of capital and labor expended.

Meadows and Pastures. A sharp razor should be run over such meadows and pastures as are idle-bound, previously to top-dressing, each acre with a mixture composed of 10 bushels of bone dust, 10 bushels of wood-ashes, 1 bushel of salt and 1 of plaster.
